

## Module MF04

Series: Mission Field

Title: Find Your Strong Foundation

### Learning Outcomes:

- How to use the Readiness 360.
- Identify your strengths.
- How to craft a small experiment.

# Part 1: To thine own self be true

Watch Video: MF04 Video 1

## Notes

Spiritual Intensity.

Missional Alignment.

Dynamic Relationships.

Cultural Openness.

## Rabbit Count

1. Problem area.
2. Low, but functional. *Normal for most mainline churches.*
3. Really good for mainline churches
4. Wildfire!

## Group Discussion

For each of the four areas complete the following:

**Individually:** Review report and write down any big “a-has.” Write down where you see strengths and opportunities.

**Group:** Compare notes. Any common themes?

**Spiritual Intensity.**

**Missional Alignment.**

**Dynamic Relationships.**

**Cultural Openness.**

## Part 2: Build from your strengths

Watch Video: MF04 Video 2

### Group Discussion

Looking at the area with the highest score, what seems to be working well?  
What is good about what you are currently doing?

Looking at your report, what is most limiting your strengths?

### Refer to Module MF03 *Finding your Neighbor*

Review your responses to the last group discussion question in MF03.  
Where and how do your strengths overlap with the needs identified in that section?

## Part 3: Experiment Time!

### Watch Video: MF04 Video 3

Developing your first experiment. Identify one simple thing that can be done in the next 60 days to achieve a quick win in your area of strength.

We will use a modified version of the *Next Step* process you will utilize later in the WCI process. As a team, answer as fully as you can the questions below:

### Our Experiment

We have learned about ourselves...

We have learned about our neighbors...

We feel our church is called to [what is your experiment]...

When/Where is this going to happen?

How will you invite people to participate?

What resources do you need?
